

unleashing people potential

NLP Master Coach Course

The NLP Master Coach training programme follows the American Board of NLP Coaching division NLP Master Coach syllabus. This allows NLP Master Practitioners to develop their coaching skills still further to specifically meet the need of the modern coaching environment.

It's a very practically based course with many new tools and concepts, which allow coaches to go beyond their Master Practitioner training.

What if you took this NLP course and learned **NLP Master Coaching Skills**

Well, you would quite simply have all the tools that you needed to coach people either professionally or at home to achieve their goals! Would that be useful?

There is a possibility of combining this course with an Institute of Leadership and Management Level 5 Coaching and Mentoring qualification. (further fees apply)

Joining requirements

- Master Practitioner ABNLP Certificate
- Master Time Line Therapy or Creating Your Future Techniques ABTLT Certificate
